

Why buy from Clear Sky?

A great investment

- ✓ Our tents are 30-40% cheaper than our UK competitors
- ✓ Low set-up cost but high rental value
- ✓ Return on investment in year 1 but 10-15 years usage

A high quality product

- ✓ Solid construction to withstand all weather conditions
- ✓ Full British Standards approval
- ✓ Choice of frames, canvas, sizes and colours
- ✓ Flexible layout and accessories available

A name to trust

- ✓ The Clear Sky team have over 20 years experience in the UK holiday industry working for major holiday park operators
- ✓ We live and breathe glamping as we run our own glamping site in Kent. So if you've got a question we've got the answer!
- ✓ Current clients range from major Holiday Park operators such as Haven Holidays, Away Resorts and John Fowler Holidays to retailers such as John Lewis and many small independent campsites and farms.

'Glamping' is the word, wherever you look in the travel news you can't escape the growing trend towards new luxurious ways to enjoy an outdoor holiday experience. For holiday parks looking to attract a new audience or farmers looking for low-cost ways to earn extra income from their land, Clear Sky safari or bells tents could be the answer.

Our Tent Range & Prices

Offering year round accommodation, safari and bell tents are a practical way to offer aspirational accommodation that will draw in guests offering that back-to-nature experience. And the return on investment is excellent, with low set-up costs you can re-coup your initial investment in less than 6 months, but the quality of our tents means they can be earning you money for 10-15 years.

Clear Sky offer a range of safari and bell tents to suit all needs and budgets. Whichever tent you purchase you can rest assured that they are all made to the highest standards using heavy weight canvas, they are totally waterproof and will not discolour.

Our Safari Tent Range

Our basic safari tent range includes two frame styles (The Steel and The Woody), two different canvas options (Premium and Superior) and three different size options (5m x 5m, 5m x 7m and 5m x 9m). However there are also a range of colour options, flexibility in terms of layout and the option to create a bespoke tent if required. For more information just give us a call.

Steel versus Woody Frames

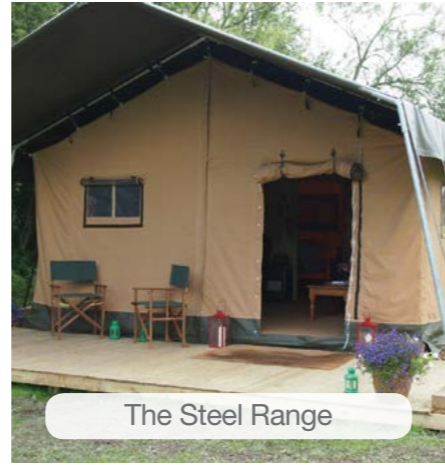

With frames made from galvanised steel you can expect long life and easy assembly from our great value for money Steel framed tents. Whereas the beautiful, natural look of the wooden framed Woody is more in keeping with some settings. Both frames are high quality and extremely durable and your choice comes down to budget, setting and personal preference.

Premium versus Superior Canvas

Once you have chosen your frame type, next comes the canvas. Our Premium canvas is simply the best in the market place as it uses the highest quality CampShield canvas from TenCate. As well as being extremely durable, this canvas is waterproof, weather resistant and inherently flame retardant providing extra security and protection. The Superior uses the high quality All Season Residential canvas from TenCate. Made from polyester, strength and durability is a given, but the tent canvas is also waterproof, breathable and weather-resistant.

The Bell Tent Range

Our bell tents are all made from heavy duty canvas, in fact the same canvas that we use to make our Safari Tents. That means they are completely waterproof and built to last for 10-15 years. Coming in a compact bag that will fit on a roof rack, our bell tents can be assembled in half an hour making them an easy, versatile & low cost way to start a glamping business.
