# Hello

Clear Sky has always prided itself on the quality of its products and its ability to provide a full service from Dream to full blown Reality.

When we started, most of the lodges we sold were open spaces, with interiors ready for furnishing. These days it's very different.

Our clients now look to us to create beautiful interiors with robust, high quality and eco-friendly furnishings. To match their expectations, we have created a wide range of furniture made from recycled scaffold board that meets the requirements and provides for stunning interiors that really have the wow factor.

With a range of add on features such as weather proof cushions, lighting rigs and bed linen, we can be sure of providing you with everything you will need to create your dream.

With such a wide range of furniture and so many options we are confident that you will always find the interior that suits your personal glamping dream.

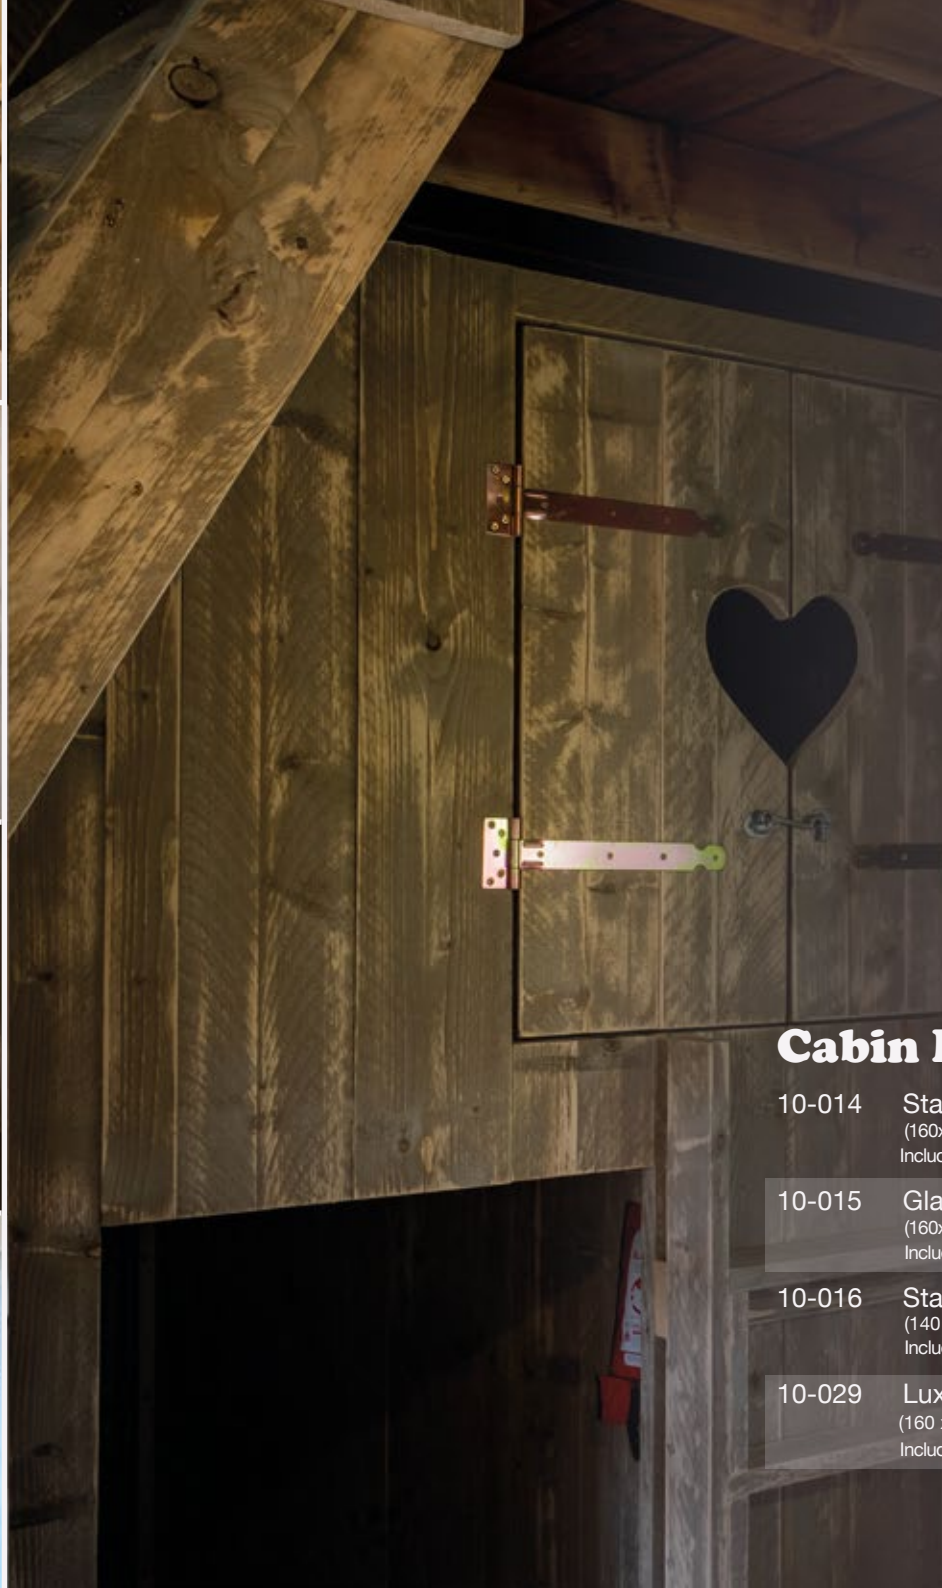

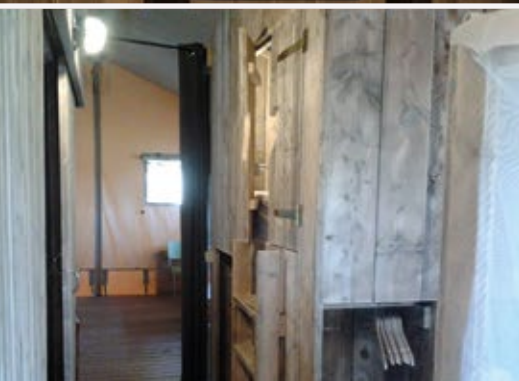

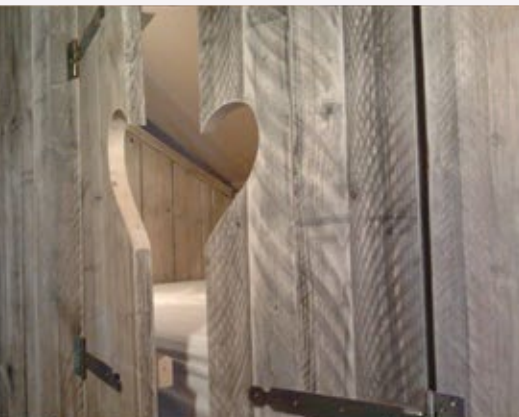

All the best,

Mark Scott  
Managing Director
